

## Emergency Medical Technician Initial Course

Summer 2022

This 144 hour course will prepare the student to become an Emergency Medical Technician. Students who successfully complete this course will be eligible to sit for the National Registry of Emergency Medical Technicians (NREMT) practical and written exams. The curriculum is based on the National Highway Traffic Safety Administration National EMS Education Standards for the Emergency Medical Technician (2009). The program follows a rigorous course of study that includes lecture, practical skills, and field internship. College credits are not offered, but participants are encouraged to check with their educational institution for possible credit allowances.
